From PD's Desk

As a part of our pursuit towards excellence in training in the area of “*Audit of Fraud, Fraud Detection techniques, and Forensic Audit*”, we bring out a series of cases of frauds reported in the audit reports of the Comptroller and Auditor General of India, as case studies. Simultaneously, we also endeavor to consolidate the approach and methodology followed by the fraudsters in committing them as well as the manner in which they were prevented/detected.

This case study, ‘Fraud detection in tuition fees payments’, has been prepared based on the material reported under para 4.1.1 of the report of the Comptroller and Auditor General of India for the year ended 31 March 2006 (Civil) Government of Andhra Pradesh.

I take this opportunity to extend our sincere thanks to the Principal Accountant General (Audit), Hyderabad and his Group Officer Shri P.V. Hari Krishna, DAG(Civil), who made us available all the relevant documents of the case whenever requested for. Our thanks are also due to them for validating the facts reported and conclusions drawn in the case study.

I commend the efforts of Smt.R.R.Shahare,AAO/CF in preparing this case study on the lines directed from time to time.

We hope that the readers would benefit from this and their suggestions, if any, would help us in future such attempts.

Principal Director

List of Key documents

Appendix No.	Details	Page No.
Appendix 1	A single postal receipt number repeated for multiple candidates	9-11
Appendix 2	Fee remittance forms accepted without postal stickers	12-15
Appendix 3	Admission without postal stickers	16-18
Appendix 4	Fee particulars either absent or made manually	19
Appendix 5	Absence of data in Computer	20-22
Appendix 6	Same DD Number recorded several times in the registers	23-28
Appendix 7	Same DD number, date and amount recorded by more than one candidate	29-31
Appendix 8	Postal stickers affixed towards exam fee belonged to some other candidate and the amount of sticker was not relevant to the actual fee payable	32-35

Fraud detection in tuition fees payments

1. Background

University introduced system of collection of tuition fee through postal stickers from 2002-03 onwards. Candidates pay the tuition fee in the post office. In token of receipt of tuition fee the post office issues a postal sticker in duplicate. One copy (original) is thick and will have adhesive gum and can be affixed and the other is a duplicate, which is a thin copy, and it is a carbon copy. The duplicate carbon copy differs a lot and is easily distinguishable from the original copy, which has adhesive gum. The Student then affixes the original copy on Computer Data Sheet (CDS) and retains the duplicate. The student submits their CDS form at the study centre.

2. Fraud Environment

The study centers are mostly manned (except few centers) by the regular staff of the concerned institute/college to whom the university pays honorarium. They are not regular employees of the university but regular employees of the concerned institute, which are mostly the colleges. The study centre prepares Admission Registration List (ARL), which contains all the names and particulars of the students who have paid the tuition fees. The study centre forwards the ARL along with CDS forms to the Admission Section of Students Service Branch of the University. It is the responsibility of Admission Section of the University to verify the payment particulars.

3. Opportunity to prevent frauds

The General Principles (Chapter 15) of Administration and Accounts manual stipulates that the accounts and the financial records of the university shall be maintained in the form and register prescribed. It shall be the responsibility of the Head of the Branch concerned to ensure that these records are maintained properly and correctly and that they are up-to-date. Further the manual stipulates detailed procedure for accounting of receipts and maintenance of books of accounts. However, it was observed in audit that the university did not follow the procedure prescribed. The Admission Registration List along with CDS forms are received by the Admission Section in the Head office and this section is expected to receive, acknowledge and verify the same. The primary responsibility of Junior Accountant concerned is to verify the CDS forms specially the fee payment particulars. After scrutiny, as per the existing hierarchy, Computer Data Sheet forms have to be passed on to the Computer section for data creation. However Computer Data Sheet forms are merely counted in number and sent to Computer section.

4. Act of Fraud

The lack of diligence on the part of the staff coupled with intentional non-adherence to the prescribed accounting procedures created opportunities for misappropriation of remittances of tuition fees. The different types of frauds that were committed are listed below:

- (i) *A single postal receipt number repeated for multiple candidates:*
The genuine student affixes the postal sticker on CDS form and

also fills up the CDS form with particulars such as Tuition fee amount paid, postal sticker number, date of payment, etc along with his details such as name, father's name, admission number, degree programme, optional subjects, etc. The details filled in tally with the details and rubber stamp of the postal department on the postal sticker (sample cases enclosed appendix 1).

While the bogus candidate does not submit any CDS form and as such the very postal sticker will not be available. However, the candidate gets admitted. The personal files where the CDS form should be present will not contain any CDS form. In 59 sample cases where the duplicate postal sticker numbers noticed were searched in audit and found that the CDS form was present only in one personal file and the other personal file has no CDS form. This was in all cases of sample that was selected in audit where there are duplicate numbers in computer (later the departmental enquiry committee detected about 1500 cases on random sample basis).

The manipulations occurred at several stages right from the Study Centre, the admission section in the University that has to check and the computer section which has to enter the data. The study centre which forward the ARL along with CDS could have checked, the admission section could have checked or at least the computer section could have checked (when there is no CDS how the computer people enter the data).

- (ii) *Fee remittance forms accepted without postal stickers:* When the CDS form received in university the CDS form contain the postal sticker affixed in the designated area and the details of fee particulars filled in by the candidate. The university has to verify the amount particulars on the postal sticker with that of details filled in by the candidate in CDS form and in token of verification a rubber stamp appended on the postal sticker in CDS form. The rubber stamp reads "USED BY Dr. BRAOU" (sample cases enclosed appendix 1).
- a) Though the CDS form do not contain any postal sticker and no details were filled in by the candidate, the university admitted them (sample cases enclosed at appendix 2). No rubber stamp was also appended.

b) Though the CDS form do not contain any postal sticker and no details were filled in by the candidate, the university admitted them (sample cases enclosed). Unlike in case above here even the rubber stamp reading “USED BY Dr. BRAOU” (sample cases enclosed at appendix 3) was also appended in the space/area earmarked for affixing the postal sticker.

(iii) *Fee particulars either absent or made manually (found to be fictitious) in the Student Fee Ledger:*

No particulars or entries were recorded in fee collected columns of Student Fee Ledger (SFL). However, the candidates were admitted. When a sample of 38 such cases (sample enclosed at appendix 4) was scrutinized in audit it was found that no entries of payment were available for those students anywhere in the university records as well as in the computer data. No personal file was available for these candidates but the candidates got admitted.

In other cases there are entries stating that as per computer centre certificate. When the audit checked 104 cases the data is not available in the computer for these candidates. These postal receipt number as mentioned in SLF were available but for different candidates (sample case at appendix 5).

(iv) *Same demand draft number used for more than one candidate:*

Same DD number recorded several times in the registers (sample enclosed at appendix 6).

Same demand draft number, date and amount recorded by more than one student in their fee particulars form. (Sample of case enclosed at appendix 7)

The above two cases clearly reflect the fraud committed by the staff with intent.

(v) *Postal stickers affixed towards examination fee belonged to some other candidate and the amount of sticker was not relevant to the actual fee payable:*

The postal stickers affixed on CDS form for tuition fee are removed from CDS form and affixed on the examination registration form. The name in the examination form and the name on the postal sticker are different. There is no relation between the examination fee that has to be paid by the candidate and the amount reflected on the postal sticker as the very amount on postal sticker is for tuition fee. The maximum examination fee payable is generally Rs. 800 or less than that depending upon the number of papers for which the candidate is appearing while the amount reflected on postal sticker is lot more (sample cases at Appendix 8). Thus, some body else postal sticker was removed and affixed and this can be possible only when the staff is involved in the fraud.

(VI) *Study Material:* In addition there is also fraud in study material which was brought out by the departmental enquiry committee. The study material was shown dispatched to the same student for several times and obviously the additional material could have been sold out by the staff.

5. Opportunity to detect fraud

Audit Party of the office of Accountant General (Civil Audit), Andhra Pradesh, Hyderabad conducted the audit of the records of Dr. B.R. Ambedkar Open University, Hyderabad and conducted a test check of records for the period 1996-97 to 2002-03. Audit found pilferage of tuition fee paid through postal stickers and demand drafts by the students and they submitted their report detailing all the irregularities that took place in the records (Copy of Inspection Report attached at Annexure 9).

During test check of records audit noticed the following “red flags” (fraud indicators):

1. Prescribed accounting procedures were not in place with regard to collection and accounting of tuition fee receipts.
2. The important registers such as Daily Collection Register not maintained. The student center-wise list of students who paid tuition fee not prepared and not sent to the concerned section maintaining the student fee ledger. Thus there is no reconciliation. Student Fee Ledger not maintained properly.
3. Audit noticed no signatures in Student Fee Ledger and the entries not authenticated.
4. When audit asked how much fee to be collected and how much actually realized the University has no clue and no records to tell.
5. Online data was then checked by Audit and several inconsistencies were noticed.
6. There were duplicate Postal Receipt numbers.
7. It was noticed that the University was maintaining data in computer from the year 2003 onwards. Therefore online data for the year 2003 (in respect of fee paid by the 2002 batch second year students and 2001 batch third year students only) was extracted and the data was analyzed. On analysis of the data 300 sample duplicate records were selected. It was found that in only 132 personal files could be located from old records section. And out of these 132 personal files only 66 files contained original postal stickers. When audit conducted a double check it was confirmed by the Department of Posts that in these sample 66 cases that postal stickers having duplicate receipt numbers were not issued.

Consequent to the report submitted by the A.G.Audit Party, internal Enquiry Committee (Departmental Committee) was constituted to go into the details of the misappropriation of tuition fee by sending individuals. The internal Enquiry Committee confirmed the allegations of the A.G.Audit Party with evidence. The Committee submitted its Report to the University with all evidences with a request that further enquiry may be conducted in detail. Based on the Report, the University suspended **14 of the employees** those who worked and are working at present in the Student Services Branch of Admissions and Old Records Sections.

6. Lessons learnt - preventive controls/detective controls

The sections responsible for verification of CDS forms vis-à-vis ARL form had not carried out their duties with vested intention and supervisory staff also colluded with the lower staff. The prescribed accounting procedures were not adhered. The computer programmers of the Student Services Centre have evolved a defective system for accounting the tuition fees remittances. The computer in charge has not exercised proper prudence and diligence to avoid the misappropriation of tuition fee remittances. Had the Computer In charge taken proper care while programming the software for fee collection by using a “Unique” number to the character column of postal sticker/DD numbers the computer would have not accepted any duplicate values. The poor programming of the software is again reflected in the date field of the CDS forms data, as the computer data does not give a true position of a student. Data of the students is also not completely computerized which gives scope for exploiting the students from time to time. Even the design of the ARL forms is defective, as it does not

contain any column for the signature of designated personnel to fix the responsibility. There is also no match between the information available in the computer, personal files and ledger. There are many procedure lapses, which give scope for different types of misappropriations like recycling of DDs, using duplicate postal stickers, accepting applications with tuition fees etc.
